I'll teach you how to fuck.
There's no better way to wake up in the morning than with a man's cock inside of me. Usually he takes me from behind. This is my favorite position because I can lie there pretending I'm sleeping while he slides himself in and out of me. I let him think he's being clever, getting off without me knowing it. Fat chance! But I won't think he's getting away with something anyway. After he worked himself up a bit, I put my finger in my mouth for a little lubrication, then I sneak it down between my legs and rub my clit until I'm so excited that I have to pretend that I have just woken up. My pussy is getting too juicy and my body is starting to move with his, so I stir and stretch and yawn and give a littlehint of surprise and annoyance, just so he doesn't take me for granted. If him to stop and let me sleep. Believing he can change my mind continues to grind me, but I don't want to come yet, so I put way from him and he lies there pouting like a sullen child frustrated and hard. I turn around and kiss him sweetly and say, "Maybe later," and pretend to drift off into sleep. When I'm sure he thinks I'm a rotten girlfriend I climb on top of him and slide his cock, which is always hard (thank God), inside of me. I don't mind continuing this scenario in the driver's seat. This is the best way for a girl to get fucked without any digital manipulation, because you can move your pussy in any way you want. You can take his cock deep, shallow and you can be sure your clit is getting worked good because you're guiding your own weight on top of him. It's so easy for me to come this way and it's only a matter of seconds before I do. I arch my come gush out of me and I wet my fingers in it and it into my nipples that are so hard I could break them. He tells me he wants come and I say, "Wait for me, baby." So he slaps my breast, which I love almost as much as when he slaps my ass. Not too hard enough to sting. Like a cat in heat I drag my clit on the beautiful piece of flesh just above his dick. I am painting him with my pussy, mastering the art of fucking. He grabs on to my ass like I'm working a jack hammer. Digging his fingers into my flesh, moving my pussy on his cock faster and faster. He says, "I'm gonna come, baby, I can't hold it any longer!" I love that helpless sound in his voice. I tell him not to close his eyes when he comes. I want to make him sweat in them, I want to see the moment of surrender when he loses control. When he gives in to me, finally I'm ready. I let his train ride through me. Teasing up the inside of my pussy, fucking it good and hard. We come together, waking up the neighborhood on top of him, drained and drift back into sleep, and I dream of my lover's cock is inside of me and he's taking me from.
Dear Johnny,

I hardly ever come up and I
ed to plan a party. I cant decide between a big
do or something small and intimate.
   do you think.

I have been kind of
lately and I want to cheer her up.

Since were been home she hasnt been herself.

I used to love her smile. Now she always wants
alone. She doesn't even want me to hold her pass.

She must be in love. I told her once and she introduced
her to Ben. Everyone loves him and
he belong to no one. He never calls her and she
gets around sulking about taking her family.

She is bored! I'm scared I never slept with her
though I make myself come all the time thinking

Anway help me decide about the party and
ever you do what I do. Ben is doing tons of
gorgeous men for us to torture. By the way
at kind of cake should we have for this beautiful
broken up? Angel food? Devil's food?

Miss having you inside me.

The best way to seduce someone is by making yourself unavailable. You just have to be busy all the time and they'll be craving to see you. Then you don't fuck them for the first five dates. Let them get closer and closer but definitely don't fuck them. Be disinterested Not too disinterested, they'll think they're barking up the wrong tree. But it's always good to play hard to get. Good perfume is really important too.

Everyone is a sucker for garter belts. You wear a dress and stockings and garter belts. You don't let him have you, but at some point you have to make him see that you have a garter belt on. No underpants is also a big turn-on. Sucking on your finger every once in a while doesn't hurt, like in the middle of dinner. Telling jokes is good. And on every date you have to say one really disarming thing.
